CONTINUING MEDICAL EDUCATION

“Minimal residual sanity – Pitfalls of MRD testing by flow cytometry” – 39038-38733

Date: December 2, 2019

Time: 12:00 PM-1:00 PM

Daniel Boyer, MD, PhD
University of Michigan

Educational Objectives

At the conclusion of this activity, the participant should be better able to:

- 1 To understand how flow cytometry is used for detection of residual B-lymphoblastic leukemia/lymphoma.
- 2 To understand how flow cytometry is used for detection of residual plasma cell myeloma
- 3 To recognize common pitfalls in the implementation and interpretation of flow cytometric assays for minimal residual disease.

Accreditation and Credit Designation Statements

Case Western Reserve University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Case Western Reserve University School of Medicine designates this live activity for a maximum of 1.00 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Planning Committee Disclosures:

This activity's planners have made the following disclosures:

- Cobb, Brian (Faculty Planner) : Nothing to disclose
cui, min (Faculty Planner) : No Disclosure
Oduro, Kwadwo (Faculty Planner) : Nothing to disclose

Speaker Disclosure

This activity's speaker have made the following disclosures:

Daniel Boyer, MD, PhD: Nothing to disclose
