

## CONTINUING MEDICAL EDUCATION

**AP Journal Club- Endocrine – 57244-57196**

Date: June 9, 2023

Time: 12:00 PM-1:00 PM

UH Cleveland Medical Center

*Jing Wang, MD***Educational Objectives**

At the conclusion of this activity, the participant should be better able to:

- 1 Discuss the prevalence of neuroendocrine tumors as the most common tumor in the small intestine.
- 2 Explain the underlying pathogenic mechanisms, which remain poorly understood. These mechanisms are believed to involve a combination of environmental, epigenetic, and genetic factors.
- 3 Review the incidence of pathogenic germline variants in genes associated with inherited susceptibility for malignancy. In an enriched cohort of patients with small intestine neuroendocrine tumors, approximately 9%-11% of cases are associated with such variants.

**Accreditation and Credit Designation Statements**

Case Western Reserve University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Case Western Reserve University School of Medicine designates this live activity for a maximum of 1.00 *AMA PRA Category 1 Credits*<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**Disclosures:**

All relevant financial relationships have been mitigated. This activity's planners and speaker(s) have made the following disclosures:

Name of individual	Individual's role in activity	Name of Ineligible Company(s) / Nature of Relationship(s)
Shahrazad Saab, MD	Course Director	Nothing to disclose - 07/14/2022
Jing Wang, MD	Faculty	Nothing to disclose - 05/30/2023
