CONTINUING MEDICAL EDUCATION

“Mechanism of androgen receptor signaling in CD8+ T cell exhaustion in cancer” - 4/4/2023 – 57496-52439

Date: April 4, 2023

Time: 12:00 PM-1:00 PM

Other

Zihai Li, MD, PhD
The Ohio State University

Educational Objectives

At the conclusion of this activity, the participant should be better able to:

- 1 Discuss the importance of sex (including hormones and chromosomes) in human immunology.
- 2 Define the role of androgen in mediating CD8+ T cell dysfunction in the tumor microenvironment.
- 3 Identify pathways impacted by sex disparities that can be targeted for therapeutic intervention.

Accreditation and Credit Designation Statements

Case Western Reserve University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Case Western Reserve University School of Medicine designates this live activity for a maximum of 1.00 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
