

CONTINUING MEDICAL EDUCATION

Aging Postively: Navigating the Next Chapter in HIV Care 71717-71697

Date: January 9, 2026

Time: 8:00 AM-9:00 AM

Online- Teams

Puja Van Epps, M.D.
 Special Assistant to the Deputy Chief Officer
 VHA Specialty Care Program Office (11SPEC)
 V10 CRH Tele-ID Lead, VANEHHS
 U.S. Department of Veterans Affairs

Educational Objectives

At the conclusion of this activity, the participant should be better able to:

- Describe the current epidemiology and unique clinical challenges of aging with HIV, including comorbidities and neurocognitive issues seen in older adults with HIV.
- Review the impact of long-term antiretroviral therapy (ART) and aging-related syndromes on the health and functional status of people with HIV, addressing both medical and psychosocial considerations.
- Identify strategies for multidisciplinary management and care coordination to optimize quality of life and health outcomes in older people with HIV.
