

CONTINUING MEDICAL EDUCATION

Moving Forward in Parkinson's Disease Pharmacotherapy: A Review of Recently Approved Medications 71724-71697

Date: February 27, 2026

Time: 8:00 AM-9:00 AM

Online- Teams

Delaney McCarthy, PharmD
PGY-2 Geriatric Pharmacy Resident
VA Northeast Ohio Healthcare System

Educational Objectives

At the conclusion of this activity, the participant should be better able to:

- Review Parkinson's disease pathophysiology and clinical presentation of motor symptoms.
- Discuss common pharmacotherapy options for motor symptoms of Parkinson's disease and review clinical considerations for each medication class.
- Analyze clinical trials for medications recently approved for treatment of motor symptoms of Parkinson's disease.
- Propose a place in therapy for new medications discussed, given available literature.
- Apply characteristics of new medications for Parkinson's Disease to the older Veteran population.
