CONTINUING MEDICAL EDUCATION

GLP-1 Agonists and the Anesthesiologist: Perioperative Implications - Wednesday Anesthesia Grand Rounds - 1/21/2026 – 72118-71396

Date: January 21, 2026

Time: 7:00 AM-8:00 AM

Biomedical Research Building

Nick Prescurea, MD
University Hospitals

Educational Objectives

At the conclusion of this activity, the participant should be better able to:

- 1 1. Discuss how GLP-1 receptor agonists affect gastric emptying and aspiration risk.
- 2 2. Summarize which patients on GLP-1 therapy are higher risk perioperatively.
- 3 3. Apply current guidance to decide when to continue, hold, or delay surgery.
- 4 4. Discuss anesthesia safely in patients taking GLP-1 receptor agonists.

Accreditation and Credit Designation Statements

Case Western Reserve University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Case Western Reserve University School of Medicine designates this live activity for a maximum of 1.00 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
