

## CONTINUING MEDICAL EDUCATION

## Pain on the Table: Intraoperative Pain during Cesarean Delivery – 78634-71396

Date: June 17, 2026

Time: 7:00 AM-8:00 AM

Biomedical Research Building

*Christina Moser, MD, MPH*  
*University Hospitals*

### Educational Objectives

At the conclusion of this activity, the participant should be better able to:

- 1 Describe some of the short and long term implications of the experience of pain during cesarean delivery
- 2 Discuss the factors associated with a higher risk of neuraxial failure and which neuraxial technique carries the highest risk of need for supplemental IV analgesia during cesarean delivery
- 3 Discuss the risks and benefits of neuraxial vs general anesthesia for cesarean delivery
- 4 Discuss how to recognize and manage intraoperative pain during cesarean delivery.

### Accreditation and Credit Designation Statements

Case Western Reserve University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Case Western Reserve University School of Medicine designates this live activity for a maximum of 1.00 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
