CONTINUING MEDICAL EDUCATION

Translational Genomic Medicine in Your Backyard: How Founder Populations Advance Rare Disease Discovery and Precision Medicine – 80128-78564

Date: October 23, 2026
Time: 1:00 PM-2:00 PM

UH Cleveland Medical Center

Heng Wang, MD, PhD
RBC Clinic for Special Needs Children

Educational Objectives
At the conclusion of this activity, the participant should be better able to:
1 1. Identify common founder variants and genetic conditions prevalent in Amish communities
2 2. Develop culturally sensitive diagnostic and management strategies for patients and families from founder populations
3 3. Integrate genetic testing, newborn screening, and translational genomic discoveries into the diagnosis and care of rare genetic diseases, with the goal of improving precision medicine and health outcomes

Accreditation and Credit Designation Statements
Case Western Reserve University School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Case Western Reserve University School of Medicine designates this live activity for a maximum of 1.00 *AMA PRA Category 1 Credits*™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
