

17th Annual Temporal Bone Surgical Course  
With an Update in Otologic Surgery

October 18 and 19, 2019

University Hospitals  
Cleveland Medical Center

11100 Euclid Avenue, Cleveland, Ohio 44106

PRESENTED BY:

**University Hospitals**  
Ear, Nose & Throat Institute

## LEARNING OBJECTIVES

- Identify the indications for retrosigmoid craniotomy
- Describe the surgical components of a retrosigmoid craniotomy
- Appropriately identify chronic suppurative otitis media (CSOM) vs cholesteatoma
- Identify patients who would benefit from ototopical therapy vs surgical intervention
- Demonstrate intact canal mastoidectomy dissection, canal wall down mastoidectomy, canalplasty, facial nerve decompression dissection, endolymphatic sac decompression, and shunt, posterior semicircular canal surgery and labyrinthectomy dissection

## WHO SHOULD ATTEND

This program is intended for graduating senior residents interested in an otologic surgery update through a series of lectures and lab dissection sessions using temporal bone specimens. Faculty lectures will be complemented by closely mentored, hands-on lab sessions offering opportunities for dynamic interaction with faculty. Each participant will have access to a state-of-the-art 10-station lab equipped with a microscope with a flat panel monitor and the latest dissection and drilling equipment.
